

Motuihe
Trust

Threatened
Plants
Project

Why are we doing this work?

2844 total species of vascular native plants in Aotearoa New Zealand
(as at 2023)

- 6 listed as extinct
- 409 listed as threatened
- 930 listed as at risk
- 116 listed as data deficient

Plants are important species in their own right, but also provide habitat and food for other native species, and shape our sense of self and place.

Kākābeak
(*Clianthus puniceus*)
EXTINCT

Tauhinu
(*Ozothamnus leptophyllus*)

REGIONALLY AT RISK
declining

Coastal harebell
(*Wahlenbergia vernicosa*)

REGIONALLY AT RISK
declining

Koheriki
(*Sandia rosifolia*)

THREATENED
nationally vulnerable

Waiu-atua
(*Euphorbia glauca*)

THREATENED
nationally vulnerable

Fireweed
(*Senecio scaberulus*)

THREATENED
nationally critical

Poroporo
(*Solanum aviculare*)

THREATENED
nationally endangered

A big thank you!
